### Our Mission Statement

Established on Christian principles,  
 Bay Village of Sarasota, Inc.  
 offers a dynamic, secure and comprehensive  
 residency for older adults, providing meaningful  
 community life with continuing care.

### Outdoor Strolls

Spring is here! Take advantage of milder weather and go for a walk in the fresh air. A recent large-scale study by the University of Michigan reported reduced stress levels in people who walked outside with a group. Researchers believe that the combination of exercise, nature and social interaction serves as a powerful mood enhancer. People facing stressful life events, such as an illness, experienced the biggest boost; however, going on regular outdoor walks may contribute to an improved sense of well-being, even when you're feeling fine.

We've got lots of trips coming up to "get you out of the house" and we sure hope you join us for one or all!

On Friday, April 1st, we're headed to the Pier at Sharkeys in Venice. First, enjoy a picnic lunch in the pavilion and then we'll stroll the pier, or if you want, head to the beach for a beach walk. The area around the pavilion where we will have our picnic also has a fun walking trail, so feel free to walk that path as well!

Yes, we will be home in time for vespers...

On Saturday, April 2nd, we're headed to Tampa Downs racetrack for a day of racing fun! We have reserved seating in the climate controlled, private area of the track and a great buffet luncheon is included! You should have received a flier in your mailbox by now giving you further details of this trip!

On Wednesday, April 6th, we're headed to Lemon Bay Park in Englewood. We'll have a guided tour of the park by one of their volunteers and then head for lunch at Fins in Venice!

Hope to see you there!

### The Power of Pecans

Celebrate National Pecan Month in April with a handful of these nutritious nuts. Rich in antioxidants and more than 19 vitamins and minerals, including vitamin E and potassium, pecans are an excellent heart-healthy snack. Studies show that pecans may also help lower the risk for age-related diseases such as Alzheimer's, Parkinson's and Lou Gehrig's disease.

### Baseball Season Begins on April 3rd!

## Wellness Corner...by Petra Mueller

In April we have the pleasure to welcome **Dr. Barry Stein**, our Medical Director, as a speaker. He will give the lecture *"Discussion on Aging"* on April 7th in the auditorium at 4 pm. Make sure you do not miss out on the chance to meet and greet Dr. Stein.

He takes care of the patients and residents on the Health Center and has a very important function in our residents' lives.

The exercise classes are in full swing and if you are interested, come and join one of my classes just for the day to see what it is all about. The weather is perfect for a class in the pool or a stroll around the pond. Try out Shuffleboard; we have the ladies' and the men's group meeting separately during the week, and newcomers are always welcome.

The ping pong tables in the computer room can be used at any time and playing is a fun way to move and compete.

### B.I.L.L. NEWS~A Few Months of Russian History & Music!:

Our current DVD series from the Teaching Company is *"The History of Russia," Peter the Great to Gorbachev*, and it is held every Tuesday, at 7:30 p.m., in the auditorium.

Your B.I.L.L. committee has decided to break this long series into three parts. Part one begins with politics and culture on the eve of Peter the

Great's efforts to transform his country; then, it looks at Peter and his reforms. Next, women's rule is examined with particular focus on

Catherine the Great. Then, the Purgachev Uprising will be covered, as well as writer Nikolai Novikov.

Next, we consider Decembrist rebellion, in which nobles took arms against the state to bring about social and political reform. Part I of this series has ended.

Your instructor for this course is Dr.

Mark Steinberg, a professor of history at the University of Illinois at

Urbana-Champaign, and director of the Russian and East European Center.

He is the winner of a number of prestigious awards, including Yale University's Sarai Ribicoff Prize for Teaching. We hope you will make plans to join us for what should be a fascinating class!

Following part 2 of this series, we'll enjoy a 5-week class about the life of Russian composer Tchaikovsky.

Part 2 of the Russian History May 3rd. On May 10th we will begin our series on Russian composer Tchaikovsky. It's titled "Tchaikovsky: His Life and Music.

This series is taught by Robert Greenberg, the same professor we had for the "Stravinsky" series, so we hope you will join us!

None of us wish to be tagged as an "imbecile": dunce, stupid, idiot, weak-minded, with an IQ of 25-50. We consider it offensive—because it is.

Yet in 1927, Associate Justice of the U.S. Supreme Court, Oliver Wendell Holmes, Jr., wrote an 8-1 majority decision which upheld a state's right to forcibly sterilize a person considered unfit to procreate. In the particular case of *Buck v. Bell*, Holmes stated "*three generations of imbeciles are enough.*"

This ruling was foundational in the early 20th century American eugenics school of thought which actively sought to "breed out" traits that were considered undesirable. It was believed "we can help nature along, if we just plan who reproduces and who doesn't reproduce." During the 20th century, as many as 70,000 Americans were forcibly sterilized on the condition that they were deaf, blind, diseased, minorities, poor, promiscuous, feeble-minded, imbeciles.

The Immigration Act of 1924 restricted those who were **not** from NW Europe. It was this U.S. Act which was acclaimed by Adolph Hitler in his "*Mein Kampf*", and became the model to develop his programs of human exterminations.

Adam Cohen, in his March 2016 book, *Imbeciles*, explores the connection between the American eugenics movement and the rise of the Nazi party in Germany. He also states that the instinct to "demonize" people who are different still is prevalent in the U.S. today.

I deeply am distressed by the "demonizing" statements on all sides in the current political rhetoric, but I fear this only represents what is becoming the core of our American culture. How I pray we can recapture a conviction that EVERYONE is a child of God.
